HYDERABAD

Placement Office

INTERNSHIP POLICY

Placement Committee has put a blanket ban on Internships for 3rd year B.Tech students in November 2011. Placement Department is neither initiates nor conduct inside or outside campus or online recruitments for Internship for UG 3rd year students etc., but students are allowed on their sole discretion to attend the internship off campus. But if they get PPO, they will not be allowed to sit for December Placements.

Internships will be allowed for M.Tech VLSI, M.Tech CASE MS By Research (Upon Research guide consent) for 5 to 6 months from Jan to July every year.

After Internship the organization has to issue the letter of Completion of Internship with credits to the HOD of the Department.

The organization has to inform the “Employment Conversion status” to the placement head by April first week of every year (up on completion of 3 months period).

Those who fail to get the employment conversion are eligible to attend for other campus drives on campus.

Continuing in the organization as FTE after Internship is purely based on the discretion of the students.

If any company assures the Employment upfront, the students are allowed to do the internship in the same organization for having an exposure to the technologies and the people.
